

**PANTHENOL
CREAM**

SILVER PANTHENOL CREAM

Quick-absorbing cream is designed for the care of normal, dry, or irritated skin. The triple formulation supports skin maintenance, soothing, and protection.

It contains colloidal silver and other active ingredients that contribute to skin preservation. It is used for the care of skin prone to friction or pressure, as well as for post-irritation care such as itching, redness, burning, scars, and discomfort.

The formulation includes ingredients that help maintain the skin's natural barrier. The colloidal silver present in the cream contributes to skin cleansing.

It is recommended for daily use for all ages, including care after shaving, depilation, or tattooing, as well as for dry and chapped skin on the hands and lips.

Usage:

Apply a small amount of cream to clean, dry skin 1-2 times a day, gently spreading it while avoiding contact with the eyes and mouth. In case of irritation, discontinue use.
