

PANTHENOL
EMULSION

SILVER PANTHENOL EMULSION

Pantenol emulsion, formulated with colloidal silver, is designed to provide comprehensive skin care, maintaining hydration and supporting the skin's natural barrier function.

The formulation supports the skin's natural barrier function, enhancing hydration and skin elasticity. Active ingredients, including colloidal silver, panthenol, and jojoba oil, possess anti-inflammatory and humectant properties.

This product is suitable for:

- Post-environmental stress care
- Soothing and calming irritated skin
- Supporting wound healing for minor skin traumas

Suitable for use on the face and body, this product can be applied to children and adults.

**Application:**

- Apply a thin, even layer to dry skin, reapplying as necessary
- Avoid contact with the eyes.

Active ingredients, including panthenol and aloe vera, possess anti-inflammatory and humectant properties. Allantoin and urea contribute to the exfoliation of dead skin cells and the preservation of skin elasticity, while jojoba oil provides additional care.
