

DERMA SERUM

DERMA SERUM

FOR SKIN REGENERATION
&
HYDRATION

ABOUT THE PRODUCT

It hydrates, nourishes, and provides soothing support for acute skin irritations. Derma serum based on colloidal silver solution, organic willow extract, aloe vera, panthenol, allantoin, hyaluronic acid, and essential oils of ginger and lavender, soothes inflammatory processes and protects against pathogenic microorganisms.

Silver ions and silver nanoparticles achieve a strong antimicrobial effect and eliminate pathogenic microorganisms that accumulate on the hair and skin of dogs, thus enabling other active ingredients to exert their powerful effect in a clean environment.

Aloe vera gel cools, hydrates, and regenerates damaged skin, maximally relieving itching. Organic willow extract moisturizes and softens damaged skin, making it suitable against inflammatory processes and other skin problems.

Panthenol and allantoin provide deep hydration, thus promoting skin regeneration. Hyaluronic acid binds moisture and thus improves skin elasticity. The anti-allergic formula is free from alcohol and parabens.

ACTIVE INGREDIENTS

Colloidal silver solution, organic willow extract, aloe vera extract, panthenol, allantoin, hyaluronic acid, essential oils of ginger and lavender.

INTENDED

All breeds of dogs.

HOW IS IT USED?

Before use, shake well and spray on the irritated area of the skin. Use 1-3 times a day as needed.
