

SHAMPOO WITH
CONDITIONING EFFECT

ABOUT THE PRODUCT

SHAMPOO

WITH CONDITIONING EFFECT

The Silver Pet Shampoo with conditioning effect is an innovative, sulfate-free formula that incorporates silver ions, hyaluronic acid, and oils of avocado, almond, hemp, lavender, and immortelle. This shampoo is specifically designed for cleaning, conditioning, and detangling dog coats, providing an ideal solution for dog owners who want to ensure their pets have healthy and shiny coats. The shampoo renders the coat clean, silky, and smooth. The silver ions and nanoparticles eliminate pathogenic microorganisms that accumulate on the dog's coat and skin, removing bacteria and allowing other active ingredients to exert their full potency in a completely clean environment.

The shampoo's ingredients penetrate deep into the hair cuticle, strengthening it from the inside out. Use of the shampoo achieves a balanced pH level (6.5-7.0). The shampoo's anti-allergic formula is free of alcohol and parabens, making it suitable for all coat types. It gently and thoroughly cleans the dog's coat, leaving a protective layer that provides additional protection and care. The natural emollients and active components contribute to a healthy appearance of the coat and prevent skin irritations. The mild formulation is also suitable for dogs with sensitive skin. In addition to removing dirt and impurities, the shampoo's ingredients also restore moisture to the skin and coat, promote shine, aid in detangling and removal of undercoat, and soothe irritated skin that itches.

In addition to removing dirt and impurities, the shampoo's ingredients also restore moisture to the skin and coat, promote shine, help comb and remove undercoat, and soothe irritated, itchy skin.

ACTIVE INGREDIENTS

Silver ions, hyaluronic, avocado, almond, hemp, lavender and immortelle oils, mild surfactants and conditioners.

INTENDED

All canine breeds.

HOW IS IT USED?

In the shower or in the bath, wet the dog with warm water, thoroughly moisten the coat and apply a small amount of shampoo from the paws upwards, carefully avoiding the eyes. Work into a lather and gently massage deep into the hair and skin. Leave it on for 5 to 10 minutes, then rinse thoroughly and gently pat dry with a towel.

BENEFITS

- No sulfates 🐾
- Protects and softens the hair 🐾
- Using shampoo creates an environment in which fleas, ticks and other parasites cannot survive 🐾
- Hydrates the skin and deeply cares for it 🐾
- Makes combing easier 🐾
- Gives fur silkiness and shine 🐾
- Excellent penny 🐾
- Easy to wash off 🐾
- Eliminates the specific smell of the animal 🐾
- Protects against pathogenic microorganisms 🐾
